JP - JAPOTICABA	SL - SWEET LIME

**Our aim is to educate and delight our guests and inspire visitors to make sustainable choices in their own homes and communities. This is our commitment to 5 elements of sustainability;**

**ENERGY**  
**Harnessing energy from the sun and reducing our usage**

- 6KW OFF-grid solar panel array
- Battery Storage and monitoring system - allows us to store excess energy so that it can be used at night.
- Energy efficient lighting and appliances
- Offer low impact activities - bike hire, canoeing and biking tours

**WASTE & MATERIALS**  
**Minimising and reusing materials and packaging**

- Recycling of paper, cardboard, glass, plastic, aluminium and steel cans, batteries, clothing and printer cartridges.
- Use 100% recycled paper
- Use of recycled materials throughout
- Use environmentally friendly cleaning products
- Compost & worm farm- food and garden waste

**WATER**  
**Mindful collection, storage and use**

- Water saving devices on taps, showers and toilets
- Water tank and Fountain- for crystal clear drinking water
- Grey water- used for irrigation
- Signage encouraging guests to minimise water usage

**PLACE MAKING**  
**Creating a space where people feel comfortable, healthy and inspired.**

- Fruit trees, kitchen garden, herbs, vines & perennials to provide healthy organic food for guests
- Fire Pit- creating a gathering place where people can come together to listen, learn, relax

**COMMUNITY**  
**Connecting with and supporting local community**

- Facilitation of community group services and projects
- We support tree planting & the local wildlife rehabilitation centre
- Buy and support locally when possible
- A connection with local Indigenous Culture
